I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: Before I was properly tested for progesterone levels (satina test not done in a doctor's office but in an independent lab), I was unable to get medication in the proper strength to solve my post-menstruation problems. Rx from standard labs were causing me big problems. Proper dosage of exactly what I need has made a world of difference in my feelings of well-being & health. This custom Rx is not available to me in AZ to my knowledge.
